microSTEEL[®]

Microwavable Stainless Steel

User's Manual

Thank you for purchasing the Bentgo Microsteel[®] Heat & Eat Lunch Box. This microwavable stainless steel lunch container is a safe and sustainable solution for stylish professionals who want to take a healthy meal on the go.

Features

- Microwavable 18/8 stainless steel container
- Optional divider creates 2 leak-resistant compartments
- Leak-proof container prevents messy on-the-go spills
- Dishwasher and freezer safe (we recommend hand washing the lid to preserve the leak-proof seal)
- Food-grade safe and eco-friendly materials
- No BPA, PVC, phthalates, lead, or vinyl

Using Your Bentgo Microsteel[®] Heat & Eat Lunch Box

1. Remove the lid and add the removable divider if you would like to create 2 food compartments. Be sure to press the divider into place firmly.*
2. Fill the lunch box with your desired foods.
3. Close the lid securely to avoid spills.
4. Before removing the lid of the filled container open the lid valve to release pressure.

*Removable divider is only ideal for keeping dry food separated. It will not prevent food with juices from seeping through the divider.

NOTE: The stainless steel is single-walled and won't keep food cold or hot for an extended period of time. Use in combination with our Bentgo Ice Packs and insulated Bentgo Bags to keep your food fresh longer.

Special Use & Care Instructions

- Wash in warm soapy water before initial use.
- Lunch container is dishwasher safe.
- Hand washing the lid is recommended to preserve the seal.
- Do not use bleach or chlorine cleaners, steel brushes, or polishing agents for cleaning.

Warnings

- **Product gets hot when warmed in an oven or microwave. Always handle with care using a potholder.**
- Container is microwave safe for a maximum of 10 minutes in microwaves that are 1000W or less.
- Container is oven safe for a maximum of 60 minutes in an oven at 350° F.
- DO NOT place 2 microwavable stainless steel items inside a microwave at the same time.
- DO NOT MICROWAVE LID OR USE LID IN OVEN.
- To ensure mess-free opening and closing, do not fill the container above the lid base.
- Avoid dropping the container.
